

ICT DEVICES DISTRIBUTION PLAN 2024/2025 FOR SCHOOLS-Phase II

A. INTRODUCTION

The ICT in Education Department in REB, continues to ensure adequate coordination of policy and initiatives as well as embracing emerging technologies in teaching and learning in basic education. The core mission of this department is “to harness the innovative and cost-effective potential of world-class educational technology tools and resources, for knowledge creation, deepening and acquisition of 21st century learning skills”.

The ICT in Education department is planning to distribute 5,197 laptops and other ICT devices, including projectors and screen projectors, to identified schools based on readiness for having a smart classroom. The laptops will serve as teaching and learning materials and will support teachers to learn English language proficiency online modules. Each school will receive laptops for smart classroom.

B. OBJECTIVES OF THIS ACTIVITY

The objectives of providing ICT devices are:

- To ensure a successful integration and usage of ICT in teaching and learning in basic education
- To support the modernization and digitization of teaching and learning processes

C. ICT DEVICES DISTRIBUTION PLAN FOR SCHOOLS

New schools will receive ICT devices based on their requests for devices and readiness status. The request for ICT devices is done through the ICTE-MIS. The requests are approved based on the verification report done by REB after the school assessment. A school qualifies to be ready to receive computers when it has a room available to be used as the smart classroom; the room should have electricity, minimum security, tables and chairs for users. The number of laptops provided is based on the existing number of laptops to ensure that every school has a minimum of 55 computers whereby 50 computers will be used by students and 5 computers will be used by teachers.

D. METHODOLOGY

REB has received 4932 laptops based on the Purchase Order N° **L141300003/00007/25** and **L141300003/00008/25** dated 21st August 2024 and an additional 265 laptops based on the Purchase Order N° **L141300003/00040/25** dated 29th September 2024.

The ICT in Education Department is planning to distribute 5,197 laptops in new identified schools with a prepared room to serve as a smart classroom. Currently, 42 schools have been identified as ready to receive 2078 laptops. However, based on new requests, the assessment for readiness is being carried out in more schools; therefore, and 56 additional schools will be identified to receive the other 3119 laptops.

The table below provides the approved list of schools ready to receive 2078 laptops and other ICT devices:

No	Districts	Schools Name	Nº of Projectors	Nº of Screen Projectors	Nº of laptops received	Nº of laptops to receive	Total No. of Laptops
1	GATSIBO	GS GIHENGERI	0	1	9	46	55
2	KAYONZA	GS NYAGAHANDAGAZA	0	1	3	52	55
3	KAYONZA	GS NYAMIYAGA	0	1	4	51	55
